

RESOLUTION NO. 21

Dr. C. G. Melton, Jr., Chairman
Northwest Arkansas Regional Planning
Commission
P. O. Box 745
Springdale, AR 72764

Dear Chairman Melton:

The City Council of the City of Tontitown, Ark. at its meeting of June 5, 1979 discussed the solid waste problem confronting the City, and agreed with the Executive Committee of NWARPC finding and conclusion that the needs of its constituents could best be served through the formation of a Regional Solid Waste Authority which would serve the Benton and Washington County area. The Council pledged its "seed funding" of \$ 19.00 to be used for the necessary fees involved in the establishment of such an authority and understands that if funds remain after the authority is established they will receive their proportionate reimbursement share. The Council also appointed the City's Chief Executive Officer to serve on the Commission's Organizational Committee for the creation of the Solid Waste Authority.

The Council stands ready to enter into formal agreements with other units of government in the two county area and pledges its support to the rapid creation of the authority and its future work in dealing with the solid waste problem in Northwest Arkansas.

Sincerely,

Mayor
