

BUILDING/PLANNING:

There is a public hearing scheduled for Tuesday, October 25th regarding the re-zoning of property on 412 between Countryside John Deere and Paramount Metals. This six-acre parcel fronts the highway and extends south to Morsani Avenue. This property is currently zoned commercial for approximately 1000' from the highway and the remaining 300' is R-3. The owner is asking to make the entire parcel C-2 in order to construct self-storage units.

STREET DEPARTMENT:

Hopefully you have noticed that our street rights-of-way are now being maintained. The Public Works Department has hired a new employee, Scott Ardemagni. Scott's primary function will be street and right-of-way maintenance.

WATER & SEWER:

Our water and sewer contractor is wrapping up the Pozza to Klenc water line as well as the Morsani sewer line. Testing of the lines will be taking place this week. Once the water lines have passed pressure testing, bacteriological samples will be collected. After two safe bac-t samples are acquired the line can be put into service.

The city closed on the property purchased for the construction of a water tower. We will clear the property and install a security fence in the next couple of weeks. Carl Gales is finishing up the design drawings and we are in the process of acquiring funding.

PARKS:

Halloween in the Park will be on Monday, October 31st, beginning at 5:00 p.m. If you would like to donate candy, please drop it off at the water office any time between now and Halloween.
