Subject: Conditional use permit for Stricycle Inc.

My name is Pat Pellin. My husband and I own property adjacent to the property where Stericycle, Inc. wants to build a Medical Waste Transfer Facility. We must strongly oppose this operation. We feel the property will most surely not be worth much because of what Stericycle wants to build there. My sister and I own most of the land that is next to these 12 plus acres. We were thinking about selling our property and if this facility was to be built we feel we would have a very difficult time selling it for what it is worth. Therefore, Please convey our opposition to this facility being built there. I am sending this because we will be out of town on May 28th and we won't be able to be there to voice our opposition in person. Thank you Pat Pellin
