

CITY OF TONTITOWN PLANNING OFFICE

201 E. Henri de Tonti Blvd. Meeting: February 22, 2022 479-361-2700 planning@tontitownar.gov

Project: Paramount Metals Rezoning

Planner: Courtney McNair, Garver

PUBLIC HEARING AGENDA ITEM

PLANNING COMMISSION AGENDA ITEM

PARAMOUNT METALS REZONING REQUEST

761 & 829 W Henri de Tonti Blvd Parcel #830-37715-001, 830-37710-000 & 830-37709-001

SUMMARY: Request to rezone the existing Paramount Metals location from C-2 to L-I in order to

bring the site into zoning compliance.

CURRENT ZONING: C-2 – General Commercial REQUESTED ZONING: L-I - Light Industrial

FUTURE LAND USE CATEGORY: RC-C - Residential Commercial Core

CITY WARD: 3-Penny Baskin and Tim Burress

INFRASTRUCTURE SERVICE AREAS (not a guarantee of service availability):

Water: Tontitown Water, existing 6" water main.

Electric: Ozarks Electric

Sewer/Septic: Tontitown Sewer, existing 12" sewer main.

Phone: AT&T

Natural Gas: Source Gas Cable: Cox Communications

PROJECT SYNOPSIS:

This project was heard and approved by the Planning Commission on November 1, 2021. At the following City Council meeting, the City Council tabled the project and asked that the Planning Commission review it again at the following Planning Commission Meeting. Planning Staff was instructed not to place it on the subsequent agenda at that time due to confusion over the nature of the request at the time (the replacement of the office building and demolition of the existing office building).

Since that time, it has been clarified that the existing office building on site may be replaced by a new building of equal or lesser size without a zoning change or a large-scale development plan. The applicant is moving forward with that project at this time.

However, the applicant has expressed that they may like to expand the existing warehousing building in the future. In order to expand any portion of the warehousing or fabrication business, this site will need to be rezoned in order to bring the existing use into zoning compliance. Non-conforming, grandfathered uses may not be expanded (except within very limited parameters). Therefore, the

applicant is asking that with the clarification regarding the office building, and potential future goals for their business, that this rezoning be reconsidered.

The owner of this property is Weeks Enterprises, LLC. The applicant/representative is Dan Scott, for Paramount Metals.

FUTURE LAND USE PLAN:

The Future Land Use Category shown in this area is for the Residential Commercial Core (RC-C). From the Vision Plan Document adopted by the City Council in November 2018:

RESIDENTIAL and COMMERCIAL CORE (RC-C)

Town Center Areas contain some of the most intense and dense development patterns within the City, as well as the tallest and greatest variety of buildings.

This is a higher intensity mixed use category, allowing for larger stores and more intense traffic patterns.

A mix of residential and non-residential development (excluding HEAVY industrial uses) is permitted. The residential component of this category will include higher intensity multifamily developments, and single family residential would likely be townhome or row house development models. The ideal mix of uses will be moderate to high density residential, office, and commercial uses, with additional open space amenities included within the development site.

These areas will accommodate row houses, apartments, local and regional retail, including large-scale stores, hotels, industry and entertainment uses. These areas are typified by their location adjacent to major thoroughfares with high visibility, usually automobile-dependent customers and large areas dedicated to parking. Although Urban Center Areas recognize the conventional big-box and strip retail centers developed along major arterials, it is expected that vacant properties will be developed into traditional mixed-use centers, allowing people to live, work and shop in the same areas.

Up to 20 multifamily dwelling units/acre.

STAFF ANALYSIS: This application is requesting rezoning for an existing, non-conforming, Light Industrial use to be brought into zoning compliance. The business has existed in this location for many years. They may not expand their business if they choose to in the future under the current zone of the property. The request for Light Industrial is well aligned with the Future Land Use Plan.

APPROVAL CRITERIA:

Not all of the criteria must be given equal consideration by the Planning Commission or City Council in reaching a decision. The criteria to be considered shall include but not be limited to the following:

(1) Consistency of the proposal with the comprehensive plan.

STAFF ANALYSIS: The current Future Land Use Plan shows this area as Residential and Commercial Core. According to the City's Vision Plan document specifically calling "Industry" as land use that can be accommodated here, this request meets the intent of the Future Land Use Map for this area.

(2) Consistency of the proposal with the purpose of these regulations.

"The regulations are intended to provide for orderly growth and development; for protection of the character and stability of residential, commercial, industrial, recreational, and environmentally

sensitive areas of the city; for protection of property from blight and undue depreciation; for efficiency and economy in the process of development for the appropriate and best use of land; for the use and occupancy of buildings; for healthful and convenient distribution of population; for good civic design and arrangement; and for adequate public utilities and facilities."

STAFF ANALYSIS: The character of the commercial zone along Henri de Tonti Blvd will not be negatively affected by this rezoning request since the business already exists. The purpose of the rezoning is to bring the property into zoning compliance so that the business could potentially expand in the future.

(3) Compatibility of the proposal with the zoning, uses and character of the surrounding area.

STAFF ANALYSIS: The requested use is for light industrial zoning; surrounding properties are zoned C-2, General Commercial.

The actual uses of the surrounding properties include Single-family residential and commercial uses.

North-zoned C-2-Timmons Oil Company, and SF-R uses across the highway.

East- zoned C-2- Commercial tow yard.

South- zoned C-2- grandfathered SF-R use.

West-zoned C-2- Uncle Tanks Self Storage.

This is an existing business, and does not negatively impact the character of the surrounding area.

(4) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment.

STAFF ANALYSIS: This property is operating successfully at this location with the current zoning designation as the first building on the site was constructed around 1986, but it is not currently in compliance with C-2 zoning. It appears that Tontitown first adopted zoning regulations in 1991.

(5) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual impairment, odor, noise, light, vibration, hours of use/operation, and any restriction to the normal and customary use of the affected property.

STAFF ANALYSIS: Nearby properties will not be affected at all by this requested rezoning. The business already exists and intends to continue to operate in the same manner.

(6) Length of time the subject property has remained vacant as zoned, as well as its zoning at the time of purchase by the applicant; and

STAFF ANALYSIS: This business is existing.

(7) Impact of the proposed development on community facilities and services, including those related to utilities, streets drainage, parks, open space, fire, police, and emergency medical services.

STAFF ANALYSIS: The business already exists and intends to continue to operate in the same manner.

TECHNICAL INFORMATION:

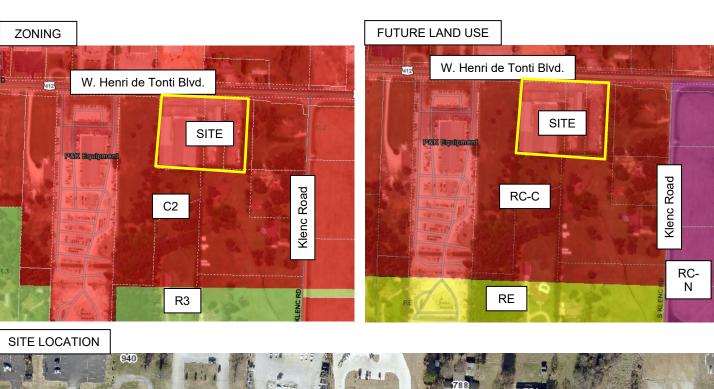

<u>Technical information will be addressed if any additional projects are submitted in the future.</u>

NEIGHBOR COMMENTS: All neighboring properties within 200 feet of the property boundary were notified by certified mail of this project. Staff has not received any comments for this project but will update the Planning Commission at the meeting is any are submitted.

STAFF RECOMMENDATION: Staff recommends approval of this request for Paramount Metals to rezone their property from C-2, General Commercial to L-I, Light Industrial, with conditions.

CONDITIONS RECOMMENDED FOR APPROVAL:

- 1. Standards found in Chapter 153.214 Residential Compatibility Standards, shall apply to all adjacent properties with a residential use regardless of current zoning.
- 2. This project shall be in compliance with all local, state, and federal regulations.
- 3. This rezoning must proceed to the City Council for approval.
- 4. Any improvements to this site require additional review.
