RESOLUTION NO. 2023-11-1083R

CITY OF TONTITOWN, WASHINGTON COUNTY, ARKANSAS

A RESOLUTION AUTHORIZING THE MAYOR TO NEGOTIATE AND EXECUTE AN AGREEMENT FOR PROFESSIONAL SERVICES WITH CRAFTON, TULL & ASSOCIATES, INC. FOR THE HERITAGE VILLAGE/TOWN CENTER MASTER PLANNING PROJECT IN THE CITY OF TONTITOWN, ARKANSAS.

WHEREAS, the City of Tontitown desires to enter into a Professional Service Agreement with Crafton, Tull & Associates, Inc. for engineering services on the Heritage Village/Town Center Master Planning Project; and

WHEREAS, the City of Tontitown has accepted statements of qualifications for engineering services required for the Heritage Village/Town Center Master Planning Project and has determined that Crafton, Tull & Associates, Inc. is the most qualified and capable to perform the desired work; and

WHEREAS, the City Council believes it to be in the best interest and benefit of the community to authorize the Mayor to negotiate and execute Professional Services Agreement with Crafton, Tull & Associates, Inc., attached hereto as Exhibit "A", for engineering services on the Heritage Village/Town Center Master Planning Project in the City of Tontitown.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Tontitown, Arkansas:

Section 1. The Mayor of Tontitown is hereby authorized to negotiate and execute a Professional Services Agreement with Crafton, Tull & Associates, Inc., attached hereto as Exhibit "A", for engineering services on the Heritage Village/Town Center Master Planning Project.

Section 2. In connection with the selection of Crafton, Tull & Associates, Inc. to provide engineering services for the Heritage Village/Town Center Master Planning Project, the City Council hereby authorizes the Mayor to negotiate any required or necessary agreements for engineering services with Crafton, Tull & Associates, Inc. and to bring the same forward to the City Council for consideration when required.

PASSED AND APPROVED this 21 day of November 2023.

APPROVED:

Angela Russell
Angela Russell, Mayor

SHORT FORM OF AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES

This is an Agreement between **City of Tontitown** (Owner) and **Crafton, Tull & Associates, Inc.** (Engineer). Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as **Heritage Village / Town Center Master Planning** (Project). Engineer's services under this Agreement (Services) are described in the attached **Exhibit A**.

Address of Project: **Properties located within N. Barrington Road, Hwy 412, and Hwy 112.**

Owner and Engineer further agree as follows:

1.01 Services of Engineer

- A. Engineer shall provide or furnish the Services set forth in this Agreement, and any Additional Services authorized by Owner and consented to by Engineer.

2.01 Owner's Responsibilities

- A. Owner shall provide Engineer with existing Project-related information and data in Owner's possession and needed by Engineer for performance of Engineer's Services. Owner will advise the Engineer of Project-related information and data known to Owner but not in Owner's possession. Engineer may use and rely upon Owner-furnished information and data in performing its Services, subject to any express limitations applicable to the furnished items.
 - 1. Following Engineer's assessment of initially-available Project information and data, and upon Engineer's request, Owner shall obtain, furnish, or otherwise make available (if necessary through retention of specialists or consultants) such additional Project-related information and data as is reasonably required to enable Engineer to complete its Services; or, with consent of Engineer, Owner may authorize the Engineer to obtain or provide all or part of such additional information and data as Additional Services.
- B. Owner shall provide necessary direction and make decisions, including prompt review of Engineer's submittals, and carry out its other responsibilities in a timely manner so as not to delay Engineer's performance. Owner shall give prompt notice to Engineer whenever Owner observes or otherwise becomes aware of (1) any relevant, material defect or nonconformance in Engineer's Services, or (2) any development that affects the scope or time of performance of Engineer's Services.

3.01 Schedule for Rendering Services

- A. Engineer shall complete its Services within a reasonable period of time. If, through no fault of Engineer, the orderly and continuous progress of Engineer's Services is impaired, or Engineer's Services are delayed or suspended, then the time for completion of Engineer's Services shall be adjusted equitably.

4.01 Invoices and Payments

- A. Invoices: Engineer shall prepare invoices in accordance with its standard invoicing practices and submit the invoices to Owner on a monthly basis. Invoices are due and payable upon receipt.
- B. Payment: As compensation for Engineer providing or furnishing Services and Additional Services, Owner shall pay Engineer as set forth in this Paragraph 4.01, Invoices and Payments. If Owner disputes an invoice, either as to amount or entitlement, then Owner shall promptly advise Engineer in writing of the specific basis for doing so, may withhold only that portion so disputed, and must pay the undisputed portion.
- C. Failure to Pay: If Owner fails to make any payment due Engineer for Services, Additional Services, and expenses within 30 days after receipt of Engineer's invoice, then (1) the amounts due Engineer will be subject to interest at the rate of 8% per annum (or the maximum rate of interest permitted by law, if less) from said thirtieth day; (2) in addition Engineer may, after giving 7 days' written notice to Owner, suspend Services under this Agreement until Engineer has been paid in full all amounts due for Services, Additional Services, expenses, and other related charges, and in such case Owner waives any and all claims against Engineer for any such suspension; (3) if any payment due Engineer remains unpaid after 90 days, Engineer may terminate the Agreement for cause pursuant to Paragraph 5.01.A.2; (4) the Owner understands the Engineer is entitled to a lien against the property if not paid in full for Services provided to improve the property and that this lien can be enforced by the sale of the property if necessary, in accordance with the laws of the state in which the property is located.
- D. Reimbursable Expenses: Engineer is entitled to reimbursement of expenses as indicated in Paragraph 4.01.E and 4.01.F.
- E. Basis of Payment
 - 1. Hourly Rates. Owner shall pay Engineer for Services as shown in Exhibit A as follows:
 - a. An amount equal to the cumulative hours charged to the Project by Engineer's employees times standard hourly rates for each applicable billing class, plus reimbursement of expenses incurred in connection with providing the Services.
 - b. Reimbursable expenses shall be invoiced at cost times a 1.15 multiplier. Compensation for reimbursable expenses is estimated to be \$ 500.00 .
 - c. Engineer's Standard Hourly Rates are attached as **Exhibit B**.
 - d. The Engineer may subcontract with other consultants to complete the services on the Project. The cost for such subconsultants shall be invoiced over and above the Engineer's hourly fees at cost times a 1.05 multiplier. The Owner shall have the opportunity to approve the use of such subconsultants prior the Engineer engaging their services.

- e. The total compensation for Services and reimbursement of expenses is estimated to be \$ **37,500.00** .
- f.
- F. Additional Services: For Additional Services, Owner shall pay Engineer an amount equal to the cumulative hours charged in providing the Additional Services by Engineer's employees, times standard hourly rates for each applicable billing class; plus reimbursement of expenses incurred in connection with providing the Additional Services. Engineer's standard hourly rates are attached as **Exhibit B**.

5.01 Termination

A. Termination for Cause

1. Either party may terminate the Agreement for cause upon 30 days' written notice in the event of substantial failure by the other party to perform in accordance with the terms of the Agreement, through no fault of the terminating party.
 - a. Notwithstanding the foregoing, this Agreement will not terminate under Paragraph 5.01.A.1 if the party receiving such notice begins, within 7 days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt thereof; provided, however, that if and to the extent such substantial failure cannot be reasonably cured within such 30-day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the same, then the cure period provided for herein will extend up to, but in no case more than, 60 days after the date of receipt of the notice.
 2. In addition to its termination rights in Paragraph 5.01.A.1, Engineer may terminate this Agreement for cause upon 7 days' written notice (a) if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional, (b) if Engineer's services for the Project are delayed or suspended for more than 90 days for reasons beyond Engineer's control, (c) if payment due Engineer remains unpaid for 90 days, as set forth in Paragraph 4.01.C, or (d) as the result of the presence at the Site of undisclosed Constituents of Concern as set forth in Paragraph 6.01.I.
 3. Engineer will have no liability to Owner on account of any termination by Engineer for cause.
- B. Termination for Convenience: Owner may terminate this Agreement for convenience, effective upon Engineer's receipt of notice from Owner.
- C. Payments Upon Termination: In the event of any termination under Paragraph 5.01, Engineer will be entitled to invoice Owner and to receive full payment for all services performed or furnished in accordance with this Agreement, and to reimbursement of expenses incurred through the effective date of termination. If the Agreement is terminated for non-payment all remaining unpaid balances shall bear interest at the maximum rate of interest permitted under State law. Upon making such payment, Owner will have the limited right to the use of all deliverable documents, whether completed or under preparation, subject to the provisions of Paragraph 6.01.F, at Owner's sole risk.

1. If Owner has terminated the Agreement for cause and disputes Engineer's entitlement to compensation for services and reimbursement of expenses, then Engineer's entitlement to payment and Owner's rights to the use of the deliverable documents will be resolved in accordance with the dispute resolution provisions of this Agreement or as otherwise agreed in writing.
2. If Owner has terminated the Agreement for convenience, or if Engineer has terminated the Agreement for cause, then Engineer will be entitled, in addition to the payments identified above, to invoice Owner and receive payment of a reasonable amount for services and expenses directly attributable to termination, both before and after the effective date of termination, such as reassignment of personnel, costs of terminating contracts with Engineer's subcontractors or subconsultants, and other related close-out costs, using methods and rates for Additional Services as set forth in Paragraph 4.01.F.

6.01 General Considerations

- A. The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with any services performed or furnished by Engineer. Subject to the foregoing standard of care, Engineer may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.
- B. Engineer shall not at any time supervise, direct, control, or have authority over any Constructor's work, nor will Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, or the safety precautions and programs incident thereto, for security or safety at the Project site, nor for any failure of a Constructor to comply with laws and regulations applicable to that Constructor's furnishing and performing of its work. Engineer shall not be responsible for the acts or omissions of any Constructor.
- C. Engineer neither guarantees the performance of any Constructor nor assumes responsibility for any Constructor's failure to furnish and perform its work.
- D. Engineer's opinions of probable construction cost (if any) are to be made on the basis of Engineer's experience, qualifications, and general familiarity with the construction industry. However, because Engineer has no control over the cost of labor, materials, equipment, or services furnished by others, or over contractors' methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids, or actual construction cost will not vary from opinions of probable construction cost prepared by Engineer. If Owner requires greater assurance as to probable construction cost, then Owner agrees to obtain an independent cost estimate.
- E. Engineer shall not be responsible for any decision made regarding the construction contract requirements, or any application, interpretation, clarification, or modification of the construction contract documents, other than those made by Engineer.
- F. All documents prepared or furnished by Engineer are instruments of service, and Engineer retains an ownership and property interest (including the copyright and the right of reuse) in

such documents, whether or not the Project is completed. Engineer grants to Owner a limited license to use the deliverable documents on the Project, extensions of the Project, and for related uses of the Owner, subject to receipt by Engineer of full payment due and owing for all Services and Additional Services relating to preparation of the deliverable documents, and subject to the following limitations:

1. Owner acknowledges that such documents are not intended or represented to be suitable for use on the Project unless completed by Engineer, or for use or reuse by Owner or others on extensions of the Project, on any other project, or for any other use or purpose, without written verification or adaptation by Engineer;
 2. any such use or reuse, or any modification of the documents, without written verification, completion, or adaptation by Engineer, as appropriate for the specific purpose intended, will be at Owner's sole risk and without liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and subconsultants;
 3. Owner shall indemnify and hold harmless Engineer and its officers, directors, members, partners, agents, employees, and subconsultants from all claims, damages, losses, and expenses, including attorneys' fees, arising out of or resulting from any use, reuse, or modification of the documents without written verification, completion, or adaptation by Engineer; and
 4. such limited license to Owner shall not create any rights in third parties.
- G. Owner and Engineer agree to transmit and accept Project-related correspondence, documents, text, data, drawings, information, and graphics, in electronic media or digital format, either through mail, email or through other agreed upon electronic means.
- H. Waiver of Damages; Limitation of Liability: To the fullest extent permitted by law, Owner and Engineer (1) waive against each other, and the other's officers, directors, members, partners, agents, employees, subconsultants, and insurers, any and all claims for or entitlement to special, incidental, indirect, or consequential damages arising out of, resulting from, or in any way related to this Agreement or the Project, from any cause or causes, and (2) agree that Engineer's total liability to Owner under this Agreement shall be limited to \$100,000 or the total amount of compensation received by Engineer, whichever is greater.
- I. In the event of a negligent error or omission in the Engineer's designs, plans, Specifications, or other services ("the defect"), the Engineer's sole responsibility and liability for the defect shall not exceed the Engineer's services to re-perform or redesign the plans, specifications, services or other deliverables related to the defect, plus the reasonable direct damages caused by the defect. The Engineer shall not be liable for and damages shall not include the cost of any addition, betterment, or improvement to the Work, nor for any item that otherwise would have been required to complete the Work, nor the cost and expense that would have been incurred by the Owner had such defect not occurred.
- J. The parties acknowledge that Engineer's Services do not include any services related to unknown or undisclosed Constituents of Concern. If Engineer or any other party encounters, uncovers, or reveals an unknown or undisclosed Constituent of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of Services on the portion of the Project affected thereby until such portion of

the Project is no longer affected, or terminate this Agreement for cause if it is not practical to continue providing Services.

- K. Owner and Engineer agree to negotiate each dispute between them in good faith during the 30 days after notice of dispute. If negotiations are unsuccessful in resolving the dispute, then the dispute will be mediated. If mediation is unsuccessful, then the parties may exercise their rights at law.
- L. This Agreement is to be governed by the laws of the state in which the Project is located.
- M. Engineer's Services do not include: (1) serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission; (2) advising Owner, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, terms, or other similar matters concerning such products or issuances; (3) providing surety bonding or insurance-related advice, recommendations, counseling, or research, or enforcement of construction insurance or surety bonding requirements; or (4) providing legal advice or representation.

7.01 Definitions

- A. **Constructor**—Any person or entity (not including the Engineer, its employees, agents, representatives, subcontractors, and subconsultants), performing or supporting construction activities relating to the Project, including but not limited to contractors, subcontractors, suppliers, Owner's work forces, utility companies, construction managers, testing firms, shippers, and truckers, and the employees, agents, and representatives of any or all of them.
- B. **Constituent of Concern**—Asbestos, petroleum, radioactive material, polychlorinated biphenyls (PCBs), lead based paint (as defined by the HUD/EPA standard), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to laws and regulations regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

8.01 Successors, Assigns, and Beneficiaries

A. Successors and Assigns

- 1. Owner and Engineer are hereby bound and the successors, executors, administrators, and legal representatives of Owner and Engineer (and to the extent permitted by Paragraph 8.01.A.2 the assigns of Owner and Engineer) are hereby bound to the other party to this Agreement and to the successors, executors, administrators, and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.
- 2. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, money that is due or may become due) in this Agreement without the written consent of the other party, except to the extent that any assignment, subletting, or transfer is mandated by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

- B. Beneficiaries: Unless expressly provided otherwise, nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Constructor, other third-party individual or entity, or to any surety for or employee of any of them. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

9.01 Total Agreement

- A. This Agreement (including any expressly incorporated attachments), constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument.

MASTER PLANNING SERVICES

Project:	Heritage Village – City Center Master Plan
Client:	City of Tontitown
Location of Project:	Properties located within N. Barrington Road, Hwy 412, and Hwy 112.
Discipline:	Landscape Architecture
Discipline Manager:	Barry R. Williams, RLA
Project Manager:	Barry R. Williams, RLA
Proposal Date:	September 22, 2023
Billing Type:	Hourly Rates plus Reimbursable Expenses
Fee:	\$37,000
Description of the Planning Project:	Master Planning Services for a new Heritage Village – City Center located on various parcels lying between Hwy 112, Hwy 412, and N. Barrington Road

Scope of Services:

Phase 1. Master Street Plan of the Site Area

- i. Maintain a project schedule and update at project milestones.
- ii. Preparation for master plan
 - a. Kick Off Meeting prior to contract for overall discuss of programming, needs and wishes. (Completed)
 - b. Base map generation from GIS, City files, and ArDOT
 - c. Site Investigation + Inventory
 - d. Review of relevant plans such as the Active Transportation Plan, Demographic, and Cultural Data
 - e. Preliminary Analysis of Drainage Basin for sizing regional detention
 - f. Produce Graphic Representation of all Inventory + Analysis
- iii. Master Street Plan Concept Development: Prepare two options for the overall master street plan of the area including options for regional detention / water feature. Included in these options will be street intersection options, on-street parking options, and public open spaces.
- iv. Master Street Plan Concept Meeting: Review of the two concept options with City Staff to gain opinions, comments, and insight into preferred options. Also, show staff some preliminary cross sections and enlarged intersection details of the streets and intersections.
- v. Master Street Plan Development: Prepare a single master street plan of the area based on comments and discussion with City Staff at the meeting above. Included will be various cross sections and intersection details for the features illustrated on the Master Street Plan.
- vi. Final Street Master Plan Meeting: Present the final street layout, street cross sections and details to the City Staff for final approval.

Phase 2. Comprehensive Site Plan of Site

- i. Comprehensive Site Plan Development: Begin to prepare and illustrate on the overall master plan the locations of buildings, parking, parks, trails, walks, venues, and other uses.
- ii. Plan Development Meeting: Presentation to City Staff for comment and feedback some of the initial project layouts and site plans within the overall project area.
- iii. Master Plan Development: Development of a Single Concept plan for the project area based on feedback and discussion from the ii. Plan Development meeting.
- iv. Master Plan Final Review: A final meeting with staff and stakeholders to review the last iteration of the overall master plan.
- v. Final Comprehensive Master Plan: Based on previous meetings complete and compile the final color rendered master plan of the overall site.

Phase 3. Approval of the Comprehensive Site Plan and Master Street Plan for the Area

At a time chosen by City Staff and Stake holders the overall Site Plan and Master Street Plan will be presented to the Planning Commission and City Council for adoption.

Future Phase: (Not included in this Contract)

Crafton Tull will work with City Staff and Stake Holders to begin development of any special design codes, architectural standards, standard details, materials selections, covenants and restrictions, etc. that will define the architectural style, look and feel of the new Tontitown Heritage Village.

***Base file images for plans will be GIS and aerial imagery only, unless written approval from the client, for the additional costs of field survey work and/or drone shots taken for more accurate base files. Approved survey work will be performed on an hourly basis.**

Additional Services:

1. Drawings and/or graphics beyond what is shown above
2. Estimates of probable costs**
3. Site surveying
4. Civil Engineering Design services
5. Landscape Architectural Design services
6. Environmental services
7. Mechanical, Electrical and Plumbing services
8. Architectural Design services
9. Preparation of construction documents
10. Construction administration.

** Cost estimates may be performed at a later date (not in this contract), when the Community Leadership is ready to apply for grants or move forward on the design. This master planning effort is not based on field survey data.

Should there be additions to this scope of services, those services shall be compensated for as additional fees. (See "Exhibit B" for fee schedule for additional services).
