

§ 153.170 ANIMAL, FARM.

Animals and fowls, where permitted in a district, shall be kept only in accordance with this code. Proponents of such uses shall show that adequate measures will be taken to prevent odor, dust, noise or drainage from becoming a nuisance to uses on other properties. No incineration of animal refuse shall be permitted on the premises. ~~In a residential district, no more than four farm, domestic or household animals over the age of four months shall be kept, maintained or harbored. However, in a residential district, the temporary keeping, maintaining, or harboring of more than four such animals may be allowed in cases of rescue, foster care, or temporary sheltering. Said temporary keeping, maintaining, or harboring of more than four animals shall be limited to 30 days.~~

(A) All animals kept in residential areas, as allowed by §§ [153.080](#) and [153.083](#) are intended to be clean, odor free, quiet, non-obtrusive, and healthy additions to a residential area for purposes of enjoyment, education, or training by the property owner, occupants, and visitors. However, grazing areas shall be required to have a suitable fence. A fencing plan shall be submitted if a conditional use application is required by § [153.122](#). Furthermore, it is required that any and all animals be provided with appropriate shelter and living conditions at all times.

(B) A minimum of one acre of undeveloped land is required to ensure adequate space for animals that require grazing. The number of animals allowed per acre may vary depending on the type of animals, the location and geography of the property, and the water and nutrients available to the animals. Therefore, we recommend owners of grazing animals such as, but not limited to, equine, cattle, sheep, goats, and fowl follow local extension office recommendations to ensure the health and safety of the animals, the owners, and the neighboring properties.
