Motion Passes Unanimously

7. Comments from Citizens

Written comment submitted by Mr. Mick Wagner- This comment is submitted for inclusion in the public record and is intended for reading only. No discussion.

Tammy Graham, 198 1984 S. Pinalto RD., Tontitown, AR

- Council members and fellow citizens, this is a continuation of the issue with public trust, fiscal accountability, and compliance with Arkansas Constitution. Recently, the Washington County Circuit Court ruled that Mayor Angela Russell violated article 12 section 5 of the Arkansas Constitution by using public funds, specifically \$15,079.95 for private legal fees. The court further declared that this act constituted an illegal exaction and permanently blocked any similar future use of public funds. The ruling has now been settled, and the principal amount has been repaid, and attorney fees were awarded. I am asking the city to see the taxpayers be fully and made fully whole including the repayment of interest for the time those funds were improperly used when public funds are diverted even for a short period Arkansas law is clear full restitution includes interest or benefit derived from those funds not recovering interest leaves the taxpayer subsidizing private legal fees contrary to the express findings of the court. In other words, it was an interest free loan taken from the purses and wallets of hardworking, responsible taxpayers of this city. The release signed in connection to the settlement applies only to the single transaction at issue and does not bar taxpayers individually or collectively from ensuring full restitution to the city. This is a matter of public money and constitutional duty. I request that y'all find out when we are going to get paid our interest back. It's pretty much that simple. All right. If you do that, you will uphold your responsibility and protect taxpayers from further abuse. Thank you.

Mick Wagner 409 Penzo Ave., Tontitown, AR

- Council members, mayor, good evening. City correspondent shows that the city funded a phone more particularly number 479-439-3019 and it was activated on November 11 of 2022. Alderman Piazza stated in an email that she had received the device sometime in December of 22. However, she was sworn into office on January 3rd of 2023. So, it is a little unclear exactly if she took it before she was sworn into office or not. Alderman Piazza in the same email confirmed that there was no council authorization for this and there was no reimbursement on her part for use of a city funded phone. And this period existed from sometime late December, early January 23 through May 13th of 2025. Records show that it was turned back in, but I am uncertain by the records provided through FOIA of whether or not it was returned to the city or returned to the carrier. Additionally, neither the 2023 or 2024 budgets include authorization to footnotes approving a phone benefit for alderman. I've confirmed this with several of y'all who have your own phones. September 2025, case number 72CV 2526 taken up by the Washington County Circuit Court found that the public funds in that case were used unlawfully and permitted and permanently enjoined unauthorized signatures. Tonight, I respectfully request the council to one verify the exact physical issuance date to this phone. Two, determine and publish the total taxpayer's cost of use for that phone as charged by the carrier to the city. Three, obtain voluntary reimbursement to the general fund for the use of this phone that was not authorized. Four, adopt a policy requiring the city council's approval. Budget line items and public disclosure of any technology device on be or the benefit provided to elected officials. This isn't personal. It is to ensure equal treatment, public trust, and compliance with the Arkansas Constitution and of course reason order. Thank you for your time.

Joined via TEAMS - Kenneth Lovett 18702 Clearwater RD., Fayetteville, AR

- Spoke on the "Point of Order" under the Robert's Rules of Order.

- We continue to try to keep people from speaking that aren't in the city limits, but we allow people that are in the city limits to attack Mrs. Piazza, to attack the mayor, and continually to dig into business. That's none of their business. They are citizens, but it is none of their business to be digging around in phones and in all this stuff that they keep digging in.

Gene McCartney 1158 Steele RD., Tontitown, AR

- One of the last things that I did with council was to call everyone that was going to be on council and give everyone just a little synopsis of what I thought would help. And several of you that were coming on the council were able to attend because you had not been placed in the position yet and I hope it helped. That's something I didn't get when I came in and I hope that gave you a little bit of leg up so to speak coming in here. This is one of those times when you need to make sure that you are doing what I used to call is my due diligence. Everyone I have told in the past is always do your due diligence. Don't always listen to every rumor around but follow up yourself and do your due diligence. Don't listen to anybody else, that's just rambling. Check yourself and look for the facts. And if there's mistakes, mistakes happen. I've made mistakes. I'll admit it and everyone else will make mistakes whether they admit it or not. But it's your job as councilman to make sure that this city flows. Thank you.

## 8. Old Business:

### A. A discussion of an ordinance to amend Tontitown codes 30.05 and 31.03. Presented by: Amber

A discussion to change the "Order of Business" of the agenda for both COW and City Council Meetings.

Motion Passes

## 10. Comments from Council Members

### Mike Washkowiak

- It's going to go back to the public comment section. I think we all realize the importance of the freedom of speech and allowing people to speak. Maybe we should do a better job of enforcing the rules that are in place for that, we're held to a little bit different standard up here. And you may see personal attacks, attacks on things that we do, we don't want the public to be fighting with each other. However, I mean, you can come at us. I mean, we get it. We're public figures. You know, there's a Supreme Court case that offers a lot of leeway to what people can say about elected officials, public people, and that's just the way it is. But what we don't need to have are citizens attacking one another with their comments. You know that I think the intent here. We want to have civil discourse, civil debate. And I think we abide by that up here for the most part. That's all I've got tonight. Thanks for coming out, everybody.

### Tim Burress

- Tuesdays are always hard, they're always hard. I don't like Tuesdays. I should because God put me in this role and this role is important. So, for that I'm thankful, but it's hard and I want to support all the people that I have the opportunity to be on this council with. I want to support the citizens. The problem is citizens only agree with me about half the time, maybe less. We're truly trying to do the best we can, and I understand people don't always agree with us. People often get very vehemently angry with us, but to Mr. Washkowiak's point, if we have to do something like raise a point of order, it's not for any other reason than to try to keep some semblance of order. articles of censure, just I want everyone to know I support that woman, but there were some mistakes made, that's all. And I hope that every Tuesday at the end of the night when I feel battered and bruised and exhausted and I'm sure you all do too that you can all go home and rest well and at least know that whether you agree with us or don't agree with us I can honestly tell you every person here is trying their hardest to do their best for you. And if you don't like any of us, that's fine. There's an election a month from today and you can change it all. Thank you for coming. Thank you for your comments. They were wise. They were appreciated. And thank you for being here tonight.

### Amber Ibarra

- Some good discussions here tonight. This was a very difficult meeting. I guess I'll start off by thanking the Fire Department. They were called out to my uncle's house, his vehicle caught fire in the shop and so they responded quickly and Chief Krug was also out there. So, I do appreciate them for their service to our community and what they mean to us.
- Halloween in the Park was I feel a great success, the Parks and Rec. Board worked hard on that and it was a big team effort. I don't know. Would you say, Chief, maybe same size crowd, bigger crowd? What would your opinion be? So, it's like years past it' be a little bit bigger. It's always hard to tell,

but it was a success. So, thank you to everybody that helped with that and that participated and we thank you to everybody that came out tonight.

**Daniel Montez**

- I just want to thank everybody for coming out tonight. It was a big meeting, long discussion and I appreciate it all. We couldn't do this without your input and your comments. So, feel free to reach out via text, email, or in person. And have a great night.

**Larry Ardemagni**

- I appreciate everybody and as chairman of the Committee of the Whole I conduct a pretty informal meeting. Robert's rules of engagement kind of go out the window with me. And sometimes people appreciate it and sometimes I think I should go back to strict standards, but I want everybody to get their thoughts out and so I do appreciate them. And I do appreciate everybody coming out and hope that we satisfy 51%. You know, 51. That's all we can ask for. Thank you.

**11. Comments from Mayor-**

- Thanked those who came out to support her, and she'll do her best.
- Sunday November 9th is the Polenta Smear at the St. Joseph Tontitown Parish from 11 to 1. There's going to be a lot of good restaurants that provided food, Venesian Inn, Red Door, Mama Z's. I know I'm forgetting some, but don't forget it is great food over there and all should come and you're welcome. And thank you all

**PAGE 2 —**

## **EXHIBIT A: FULL PUBLIC STATEMENT**

### **Public Statement to Accompany Minutes**

**Citizen:** Mick Wagner, Tontitown resident @ 409 Penzo Ave

**Date:** November 4, 2025

Mayor and Council Members, good evening. My name is Mick Wagner, and I am a resident of Tontitown.

City correspondence shows the City-funded phone number **479-439-3019** was activated on **November 11, 2022**. Alderman Piazza stated she received the device “**sometime in Dec 2022.**” She was sworn into office on **January 3, 2023**, so it remains **unclear whether the device was issued before or after she took office.**

### **Alderman Piazza confirmed:**

- **No Council authorization**
- **No reimbursement**
- **No other alderman** received a City-funded phone
- **Device was returned around May 13, 2025**

Additionally, neither the **2023 nor 2024 budgets** include authorization or footnotes approving a phone benefit for aldermen.

On **September 30, 2025**, in Case **72CV-25-26**, the Washington County Circuit Court found that public funds were used without lawful authority and permanently **enjoined unauthorized expenditures**. That decision reinforces the importance of fiscal controls and transparency in Tontitown.

### **Tonight, I respectfully request that the Council:**

1. Verify the **exact physical issuance date** of the device
2. Determine and publish the **total taxpayer cost**

3. Obtain **voluntary reimbursement** to the General Fund
4. Adopt policy requiring **Council approval, budget line item, and public disclosure** for any technology device or benefit provided to elected officials

**This is not personal. It is to ensure equal treatment, public trust, and compliance with the Arkansas Constitution and the Court's recent order.**

Thank you for your time and commitment to responsible stewardship.
